

Automatic Wire Stripping Tools

0497 Rapidstrip

**Grips & strips
in 1 action**

**Stripping
Profile**

Ideal for electronic/electrical maintenance engineer. The tool is based on a long established mechanical principle with optimum leverage designed to minimise operator fatigue, it is self-adjusting throughout its capacity range and has a built-in wire cutter and a removable wire length stop.

- A one-handed action grips and strips the wire without damage to the conductors.
- Integral wire cutter and variable gripping power control.
- High mechanical leverage design makes the tool easy to use and minimises operator fatigue.
- Detachable wire length stop.

Technical specification

Stripping	Round wires from 0.5mm ² to 6.0mm ²
Cutting	Up to 6mm ² stranded copper conductor
Length	180mm
Height	70mm
Weight	150gms
